

THE ENERGY INDUSTRY IS ACTIVELY SEEKING

# VETERANS

FOR MISSION-FOCUSED, GOAL-DRIVEN CAREERS

## THE ENERGY INDUSTRY POWERS LIFE.

Business, education, healthcare, travel, and many of our favorite pastimes are made possible by the energy industry. Its professionals are in high demand as problem solvers and critical thinkers who serve on the front lines of the country's clean energy transition.

They are highly trained, highly skilled first responders who rebuild infrastructure and restore power following storms and natural disasters, and they protect and maintain the electric grid and gas pipelines essential to the way we live.

Veterans are uniquely suited for a second career in the energy industry, as they are self-motivated, disciplined, outcome-driven, and safety-conscious.

Employment of veterans is a continuation of their work to protect national security through the production of safe, reliable power for American homes and businesses, fueling our lives and economy.

## FAST FACTS ABOUT ENERGY INDUSTRY EMPLOYMENT

- ⚡ Veterans represent almost 10% of the energy industry's workforce.

## WHAT ARE THE BENEFITS OF ENERGY INDUSTRY CAREERS?

Each of us has unique professional motivations, but some of the most common responses to what people value most about energy industry careers include:

- ⚡ Doing essential and meaningful work
- ⚡ Team-oriented work
- ⚡ Being part of a reliable, trusted, essential profession
- ⚡ Quality and scope of training programs
- ⚡ Strong earning potential and benefits
- ⚡ Helping to restore people's lives after storms and natural disasters
- ⚡ Career advancement
- ⚡ Protecting our nation's resources

## Why are veterans uniquely suited for energy industry careers?

Veterans are uniquely suited for careers in the energy sector because they already have training and experience in procedural and regulatory compliance. They know how to work as part of a team, are dependable, and are natural leaders. Many of the skills developed in the military are easily transferable to successful careers in the energy industry, making servicemen and women highly sought-after candidates for industry employment.
