

FROM THE FIELD TO THE GRID

Why athletes make **POWER PLAYERS IN ENERGY**

You've trained in the heat, pushed through setbacks, and showed up when it mattered most. These aren't just the hallmarks of a dedicated athlete—they're the very same qualities that drive success in the energy industry. Whether you're calling plays, protecting the line, or sprinting toward the goal, you've built the skills energy professionals use every day: **teamwork, discipline, grit, adaptability**, and the **ability to perform under pressure**.

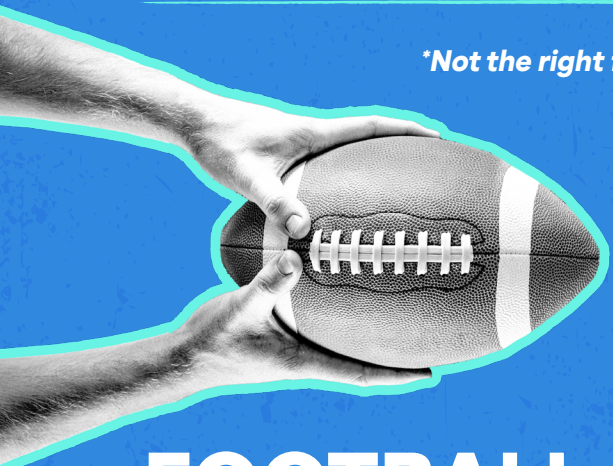

Energy careers aren't only about power plants and hard hats—they're about smart strategy, bold leadership, and real-world impact.

Sound familiar? That's your game. Now make it your future.

What's your sport say about your **FUTURE IN ENERGY?**

*Not the right fit? Discover your path at GetIntoEnergy.org

FOOTBALL

Field Ops, Linework & Power Moves

You're tough, team-driven, and used to rain, mud, or 100° heat. You read the field, stick to the game plan, and take hits like a pro.

POTENTIAL ENERGY FIT*

Lineworker, Wind Tech, Substation Operator, Power Plant Crew

SOCCER

Global Thinkers & Energy Heroes

You've got endurance, adaptability, and global vibes. You play the long game, move with flow, and care about the bigger picture.

POTENTIAL ENERGY FIT*

Sustainability Analyst, Carbon Tracker, International Energy Policy

BASEBALL

Inspection Experts & Mechanical Masters

You've got focus, form, and freaky-good instincts. You read the pitch, anticipate the play, and never sleep on the details.

POTENTIAL ENERGY FIT*

Reliability Engineer, Inspection Specialist, Plant Technician

RUGBY

High-Voltage, No-Quit Grit

You're all heart, hustle, and grit. You don't shy away from contact, chaos, or a challenge—you thrive in it.

POTENTIAL ENERGY FIT*

Emergency Response, Oil & Gas Operator, High-Voltage Tech

SOFTBALL

Precision Pros & Rhythm Rockstars

Your game is timing, focus, and staying sharp every play. You're a detail machine with a killer eye for movement and flow.

POTENTIAL ENERGY FIT*

Maintenance Tech, Control Systems Operator, QA/QC Inspector

BASKETBALL

Project Ballers & Control Room Commanders

You see the court, call the plays, and move with purpose. You're calm in the clutch and quick with the pivot.

POTENTIAL ENERGY FIT*

Project Manager, System Operator, Grid Strategist
